

YAKIR ARBIB

my name is Yakir

JMS 114-2 CD DIGIPACK

Here's a great pianist. His name is **Yakir**.

Israeli-Italian, Yakir Arbib (30 years old) was born with a visual impairment. He is an amazing "visionary" in the art of improvisation and composition. His characteristic of "seeing" musical tones as distinct colors (synesthesia) guides him in his creative process.

MY NAME IS YAKIR is an album that is both moving, surprising and beautiful. Whether in the rewrite of standards or his own compositions.

There is no doubt that the charm operates instantly. Yakir is a virtuoso in a broad sense with a very personal piano playing.

Guaranteed sensations.
